PROFESSIONAL SUMMARY

Full-Stack & AI Engineer with 5+ years of experience building scalable web applications, intelligent AI solutions, cloud-native systems, and automated workflows. Skilled in React, Next.js, JavaScript, Python, PHP, Data Science, Machine Learning, Deep Learning, Generative AI, AI Agent Development, AWS, Vercel, Docker, Kubernetes, and n8n. Passionate about transforming complex business requirements into practical, scalable, and production-ready technology solutions.

TECHNICAL SKILLS

Full-Stack Development: HTML, Tailwind CSS, JavaScript, React, Next.js, Python, PHP
Artificial Intelligence: Data Science, Machine Learning, Deep Learning, Generative AI, AI Agent Development
Cloud Engineering: AWS, Vercel, Cloud Deployment
DevOps & Containers: Docker, Kubernetes, Containerization
Automation: n8n, Workflow Automation, API Integration

PROFESSIONAL EXPERIENCE

Full-Stack & AI Engineer — Mansha Virtual Institute of Technology (MIVT) 2021 – Present

- Develop and maintain full-stack web applications using modern frontend and backend technologies.
- Build responsive and user-focused interfaces using HTML, Tailwind CSS, JavaScript, React, and Next.js.
- Develop backend services, APIs, and application logic using Python and PHP.
- Design and implement Data Science, Machine Learning, Deep Learning, and Generative AI solutions.
- Develop AI agents and intelligent workflows to automate processes and solve practical business problems.
- Deploy and manage applications using AWS and Vercel.
- Use Docker and containerization to improve application portability, consistency, and deployment workflows.
- Work with Kubernetes and cloud-native technologies to support scalable application environments.
- Create automated workflows and system integrations using n8n and APIs.

EDUCATION

Master of Computer Science — completed 2021
